iUniverse, United States, 2015. Paperback. Book Condition: New. 214 x 149 mm. Language: English . Brand New Book. Designed to be a primer for mental health practitioners desiring to write treatment plans from a reality therapy perspective, *Treatment Planning from a Reality Therapy Perspective*, by author Michael H. Fulkerson, provides an explanation of how reality therapy treatment planning differs from traditional treatment planning models, which are usually based on the medical model and/or external control psychology. Fulkerson offers a synopsis of his experience and research using reality therapy as a treatment modality, presents a review of different treatment models and compares them to reality therapy, provides examples of how to write treatment goals and objectives from a public health model rather than from a medical model that are precise and measurable, covers documentation of progress notes, and discusses cases studies. A helpful resource for professionals wishing to incorporate reality therapy into treatment planning for their clients, this second edition of *Treatment Planning from a Reality Therapy Perspective* offers treatment plans from a reality therapy perspective that have been field-tested by a clinician who has received numerous successful reviews from health care organizations.
