APPROPRIATE USE CRITERIA IN ECHOCARDIOGRAPHY

Condition: New. Publisher/Verlag: Éditions universitaires européennes | An Observational Institutional Study with the Perspective of a Quality Improvement Project | Appropriate use criteria in echocardiography are essential tools for aligning indications of echocardiography with the best clinical standards, improving clinical outcome, restraining abuse and preserving healthcare resources. Assessment of 501 inpatients who received transthoracic cardiac echo was conducted according to the 2011 appropriate use criteria report. Indications were classified as appropriate, uncertain or inappropriate, and patients not matching any of...
