Not illustrated. 1921 Excerpt: .by a hod carrier weighs 100 pounds, find the weight of a single brick. 7. A fruit dealer paid \$7.50 for a crate of oranges. What price did he pay per orange? 8. A train runs from city A to city B in one hour. Find the distance from A to B. 9. Last year John grew 2 inches, and this year he has grown 3 inches. How tall is John? An Exercise in Estimating Results Often in life you can use your knowledge of arithmetic in checking your answer to a given question. This exercise illustrates this type of problem solving. On a sheet of paper put in a column the numbers of these problems from 1 to 6, leaving a little room between the numbers for your work. The answer to these problems is either Yes or No. Read the problem carefully. When you...
