Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.My first year of teaching was absolutely the worst year of my life. The only reason I went back for my second was that I had gone to college on a teaching scholarship and unless I completed four years of teaching, I had to pay back a lot of money. Fortunately for me, my second year was a lot better than my first, and by the time I completed the required four years, I could not imagine myself doing anything else. During the thirty years that I taught high school, I served as mentor to a lot of beginning teachers, both officially and unofficially, and although no two of the teachers I worked with had exactly the same experience, they all felt just as lost and bewildered as I had during my first year. A couple of years after I retired, a former student asked if I had any words of wisdom for her as she began her first year teaching. I don't know how wise anything I told her was, but that conversation was the foundation for this book.
