Relativity also predicts that the only way to travel to the past is to first travel to the future, at which point one contracts to a size smaller than a Plank length and in so doing blowing a hole through the fabric of the space-time continuum and which may lead to a mirror universe if one dares to cross over the Einstein-Rosen bridge--and similar bridges are predicted to lead to other universes upon entering and surviving a journey through a black hole. Quantum mechanics also predicts time reversal in spaces smaller than a Plank length. Although the branch of...
