

Chemical Calculations: With Explanatory Notes, Problems, and Answers (Classic Reprint)

By Richard Lloyd Whiteley

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Chemical Calculations: With Explanatory Notes, Problems, and Answers In the division of chemical teaching into departments, which sooner or later becomes necessary in a growing College, the instruction of students in Chemical Calculations has for several years fallen to the lot of the author of this little treatise. Mr. Whiteley has also, at the same time, been engaged in laboratory teaching, and in lecturing upon certain special branches of Chemistry. The text-book which he now issues accordingly bears manifest evidence, not only of his experience as a teacher, but also of his being well in touch with the calculations which are required by chemical students for various purposes, and with the chemical knowledge which elementary students may be assumed to possess. As a matter of fact, however, the author has wisely decided to give a short summary of chemical facts or processes before proceeding to explain the methods of calculation which are applied to them. Laboratory students will find a most useful and convenient explanation of the methods of calculating the results of specific gravity...

Reviews

This publication is really gripping and exciting. It really is basic but unexpected situations in the 50 % in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Prof. Salvador Lynch

Extensive guideline! Its this sort of very good go through. I have got read and i am confident that i will gonna read through once more once more in the future. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Joana Champlin
