Excerpt: .necessity be equal as at A (163), but it is practically convenient to make them so. The design is could of course be woven; but, if the repeat of the turnover measured 9 inches, a manufacturer would not allow 18 inches for the single. In the same way the repeat of a border must naturally correspond at the side of a curtain with the depth of a filling pattern, and at the bottom with its width (162, 164)-- and if part of the filling is single, the corresponding portion of the border also may be. In the case of a narrow and not very important border it may be shorter than the filling as long as its length is divisible into that--a 9-inch filling may have a border of 4! inches, or 3 inches, or 1\$. And so where the border is the main feature...
